4	I think it is a good idea for young people to start their own companies. The first reason is that young people will have more freedom if they do so. This is because they can set their own working hours. When they want to take a break, they can. The second reason is that people who start their own companies can do something they love. For example, a person whose hobby is cycling could start a company that makes bicycles. Therefore, I think it is a good idea for young people to start their own companies.
